

COSHH Assessment Form

ICA 2025-04

Anston Pest Control Ltd

This assessment only addresses the risk of harm to health from the substances listed. Additional risk assessments may be required to control the risk from other hazards associated with this work/the procedures used.		
Assessor Matthew Starr	Employer/Supervisor Matthew Starr	
Assessment Date 01/01/22	Dates reviewed 01/01/25	
Substance <i>Cipermax Plus</i> CYPERMETHRIN, TETRAMETHRIN	Handling Hazards Ingestion, Inhalation, Dermal, Absorption	Quantity <i>10ml per litre dilution rate</i> <i>Application rate 1ltr per 25m²</i>
State of matter	liquid Form: Colour:	Clear Odour: odourless
Additional information <ul style="list-style-type: none"> Workplace Exposure Limits: <p>Provide adequate general and local exhaust ventilation. Ensure the ventilation system is regularly maintained and tested. Good general ventilation should be adequate to control worker exposure to airborne contaminants. Observe any occupational exposure limits for the product or ingredients.</p> <p>Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work.</p> 		
Emergency Procedures <p>Inhalation Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Maintain an open airway. Loosen tight clothing such as collar, tie or belt. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Get medical attention. Place unconscious person on their side in the recovery position and ensure breathing can take place.</p> <p>Ingestion Rinse mouth thoroughly with water. Give a few small glasses of water or milk to drink. Stop if the affected person feels sick as vomiting may be dangerous. Never give anything by mouth to an unconscious person. Place unconscious person on their side in the recovery position and ensure breathing can take place. Keep affected person under observation. Get medical attention.</p> <p>Skin contact Rinse with water.</p> <p>Eye contact Rinse immediately with plenty of water. Do not rub eye. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes and get medical attention..</p>		

What will the chemical be used for? (*biocidal product*) Treatment of label specific pest species

Who may be exposed? Technician, Public if not excluded from area 2 hours after treatment or until product is dry.

METHODS OF PREVENTION OR CONTROL OF EXPOSURE

Access control/storage & transport

- restricted to competent personnel: Report sheet should be filled in by technician and signed by on site supervisor/competent person to signify all recommendations about treatment and exclusion times are understood.
- Do not apply to areas that are easily accessible to children and pets as per site specific environmental assessment.
- Product should be stored in an access restricted area and transported in B & G Chem box to and from jobs

Special procedures

- Following of label directives.

Approved PPE (*Note: PPE is to be used as the 'last resort' when controlling exposure*)

PPE to be worn
Wear respirator with a particle filter mask (protection factor 4) conforming to European norm EN149FFP1 or equivalent
Wear CE Marked (or equivalent) nitrile rubber gloves (minimum thickness of 0,4 mm)
Wear goggles (conforming to EN166, Field of Use = 5 or equivalent).
Wear standard coveralls and Category 3 Type 6 suit. If there is a risk of significant exposure, consider a higher protective type suit

Disposal Procedures (*Give details of waste disposal procedure to be used*)

Dispose of on quarterly return to killgerm chemicals accompanied with consignment return to environment agency

TRAINING REQUIREMENTS

(RSPH L2

ASSESSMENT OF RISK USING CONTROLS DETAILED ABOVE⁽¹⁸⁾

(Are the hazards/risks suitably controlled, using the control measures detailed above? If not, state the further actions required, e.g. Requirement for a standard operating procedure (SOP), etc).

YES

Authorisation by Employer/Supervisor

I confirm that I have considered and understand the chemical to be used and the associated hazards. I am satisfied that all of the hazards have been identified and that the control measures to be followed will reduce the risks to as low a level as reasonably practicable and am happy for my employees to proceed using this product and follow the guidance outlined by this assessment.
